

OVER POWERING SMARTER DECISIONS: ADVANCE COMPONENTS GAINS REAL-TIME BUSINESS INTELLIGENCE WITH VIYU

A PARTNERSHIP BUILT ON TRUST AND STRATEGY

Viyu has partnered with Advance Components, Inc. to enhance business intelligence and operational visibility across the organization. Working collaboratively with AMPio, the team designed and implemented a unified Power BI platform that delivers accurate, real-time reporting for all key departments.

EVOLVING TOGETHER

This ongoing partnership has focused on transforming how Advance Components accesses and interprets data. By integrating multiple systems into a centralized Power BI environment, leadership now benefits from actionable insights that support smarter, faster decision-making.

- Designed and deployed a company-wide Power BI reporting platform
- Integrated data from sales, accounting, and supply chain systems
- Improved visibility, accuracy, and consistency of business metrics
- Provided ongoing support and optimization for evolving data needs

“Working alongside Ampio and Viyu has been an incredible experience. The Power BI project truly reflects what’s possible when strong partnership meets innovative thinking — together, we built a smarter, more connected view of our business.”
