

OVER A DECADE OF TRUST: SUSTAINING WESTDALE'S IT EVOLUTION WITH VIYU

A PARTNERSHIP BUILT ON TRUST AND STRATEGY

For over a decade, Viyu has partnered with Westdale to provide ongoing network engineering and lifecycle support across their headquarters and nationwide property portfolio. This trusted relationship has focused on maintaining reliable, scalable infrastructure and simplifying IT operations across locations.

EVOLVING TOGETHER

Viyu serves as an extension of Westdale's IT team—delivering proactive network management, design, and support services. Through continuous collaboration, Viyu ensures the network remains secure, optimized, and ready to support Westdale's evolving business needs.

- Ongoing network engineering and lifecycle management
- Continuous modernization of infrastructure and security
- Centralized visibility and streamlined operations across properties

“Over the years, Viyu has helped us scale with confidence. Whether it was upgrading our infrastructure, navigating complex licensing needs, or troubleshooting mission-critical systems, their team has always shown up with professionalism, precision, and a deep understanding of our business. Their technical expertise is matched only by their commitment to service.”

ANTHONY BRENKUS
WESTDALE

RESULTS THAT LAST

Today, Westdale benefits from:

| | | |
|-------------------------------|-----------------------------------|----------------------------------|
| Optimized Network Performance | Streamlined Multi-Site Operations | Consistent, Proactive IT Support |
|-------------------------------|-----------------------------------|----------------------------------|

The partnership continues to evolve. We're now helping Westdale plan their next chapter with:

- Ongoing infrastructure modernization
- Enhanced network visibility and security
- Strategic technology lifecycle management

See what a decade of trusted IT partnership can do for your business.
