

BUILT TO SCALE: ASSET PANDA'S IT PARTNERSHIP WITH VIYU

Delivering reliable managed IT support for a fast-growing SaaS organization

A PARTNERSHIP BUILT ON TRUST AND STRATEGY

As Asset Panda scaled its SaaS platform and internal operations, the company partnered with Viyu Network Solutions to provide consistent, flexible IT support without adding internal overhead. Since 2016, Viyu has served as a trusted extension of Asset Panda's team, supporting infrastructure, security, and day-to-day IT operations.

EVOLVING TOGETHER

This long-term partnership focuses on delivering reliable managed IT and help desk support that adapts as Asset Panda's needs evolve. Viyu provides end-to-end services across infrastructure management, security, cloud productivity, and end-user support—ensuring stability, responsiveness, and scalability.

Key initiatives include:

- IT procurement and lifecycle management
- Infrastructure and hosted server management
- Backup, recovery, and security services
- Microsoft 365 administration and email security
- Endpoint patching and remote help desk support

“For nearly a decade, Viyu has delivered the consistency and expertise we need to support a growing SaaS platform.”

ASSET PANDA

RESULTS THAT LAST

Today, Asset Panda benefits from:

- A Stable and Secure IT Environment
- Reliable End-User Support Across the Organization
- Scalable Operations Without Internal IT Overhead

With a trusted IT foundation in place, Viyu continues to support Asset Panda through:

- Ongoing managed services and help desk support
- Proactive infrastructure and security management
- Technology alignment that scales with the business

Partner with Viyu to build a reliable, scalable IT foundation that grows with your business.
